

# How Long Does It Take Me To...

Take a look at the following list of tasks and make sure you understand each one. (You must ask any questions before you start.)

Now, "guesstimate" how long each task will take you and write that time (in minutes and seconds) in the correct column on the worksheet. Next, use the ActionBits Timer to see how long it takes you to do each task. Write your actual time in the correct column for each task. Do the sample question now and put your cup up when you finish it.

<b>How Long?</b>	
	<b>Sample: How long does it take you to type your name on the computer.</b> ( <i>(Start the ActionBits timer, type your name, and then stop the Actionbits timer. Write your time on the worksheet in the blank beside "Sample")</i> )
	<b>1. How long does it take you to read a paragraph and answer two questions about the paragraph?</b>
	<b>2. How long does it take you to look up a word online and type a sentence using the word correctly?</b>
	<b>3. How long does it take you to copy a paragraph by hand?</b> (Copy the paragraph in the space below.)
	<b>4. How long does it take you to do a word problem?</b>
	<b>5. How long does it take you to do four math problems?</b>
